

RCEL
RECESSED CAN EMERGENCY LIGHT

OVERVIEW

The RCEL is designed to look like a normal recessed downlight, but is actually an emergency light. The fixture comes with (1) 8W halogen lamp and a white trim. It blends very well into commercial, retail, and high-end spaces. The lamp can be angled to adjust the illumination area. It also features a push button for easy testing of the battery.

FEATURES

The RCEL comes with a 8W incandescent lamp that is gyroscopically mounted so it can be easily angled to cover the desired area.

EXTERNAL SPECIFICATIONS

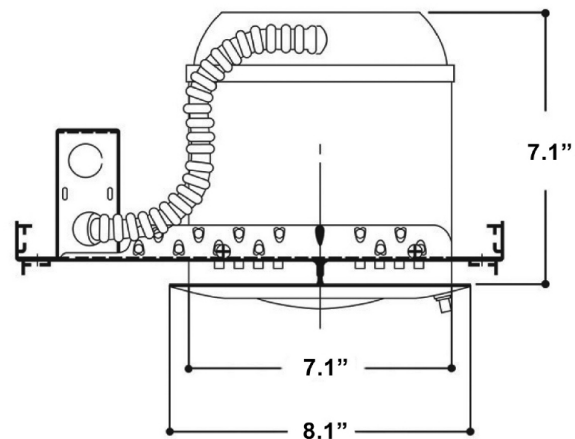

The RCEL is constructed from corrosion and flame-resistant lightweight aluminum. All electronics are fully self-contained within the housing. This allows for easy handling and effortless installation. The standard trim plate comes in a white powder coat finish
